LOCALISING WORDS FOR THE GLOBALISING WORLD

LANGUAGE**REACH**

OUR REACH

With international offices, we operate in over 150 languages. We have a strong team of 8000 global translators, interpreters and cultural specialists.

OUR EXPERIENCE

As a well-established company, we've built and sustained a large global network of specialist translators. We are unique and cover a larger variety of languages and specialisms when compared to the majority of language service providers.

OUR SPECIALITIES

We are regarded by our clients as more than a translation agency. Regularly we're called upon for our cultural and 'on the ground' experience. We are flexible, fast, and because of our structure, able to deal with highly complex projects.

TRUST & REPUTATION

We are trusted and relied upon to provide language services to hundreds of the world's largest corporations and public sector organisations.

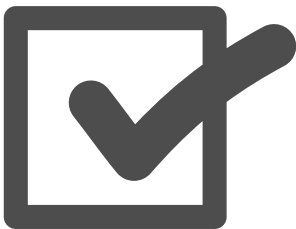

Confidentiality is key and working in the industry that we do, we know how important this is to you. If you require that little bit of extra assurance, we are happy to provide signed non-disclosure agreements at your request.

OUR SERVICE LEVEL & SPEED

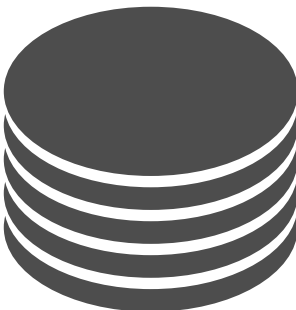

We are known for the speed in which we deliver, and because of our structure, we are able to adapt our services according to your needs and deadlines, no matter how difficult they may appear. Same day translations are not rare!

Our flexible approach enables us to shape our services around each and every individual request no matter how niche. In order for us to do this, you will be assigned an account manager on your first order. This helps us to get to know you and how you work in the shortest time frame possible.

QUALITY ASSURANCE

Getting it wrong is not an option for you, so it is not an option for us. We only select qualified linguists, native to your chosen language. Our main aim as a company is to ensure our clients satisfaction and at every stage possible, we insist on implementing our core values; efficiency, quality, reliability and security.

COST

Our prices are competitive due to our innovative approach, technology, company size and how we operate. Quality is at the heart of everything we do and we are able to offer price competitive services without compromising standards.
